## **HOW TO PLAY**

## SET UP

1. Give each player 5 Text Cards
2. Leave remaining Text Cards in the middle of the table
3. Place Letter and Number Cards side by side. Shuffle separately.
4. Shuffle the Contact Chaos Cards into the Letter Cards
5. Pray you don't need a Sorry Card

## WIN

First to win 5 Text Cards is the Message Mogul

## PLAY

The person with the coolest shoes starts

1. Player 1 takes a number and letter card (e.g., M & 3).
2. They open their contact list, go to the letter M and scroll down to the 3rd contact.
3. Player 1 describes the contact and their recent messages.  
For example, "It's my ex. She said she doesn't love me anymore".
4. Other players, apart from the person sitting to the right of player 1, choose their most twistedly funny Text Card and place it face down on the table.
5. The person to the right of player 1 is the 'The DM Don'. They shuffle the Text Cards and read them out. They then choose which text player 1 should send. E.g. "I miss you".
6. If player 1 sends the message, THEY win the Text Card. If they back out, the person who put down the card wins it.
7. Cards that are won are placed in a 'winning pile' in front of their new owner. Won cards are out of play.
8. Unchosen cards are returned to the bottom of the Text Card pile in the middle. Players take a new Text Card to remain at 5 cards.
9. Play moves to the left and the chaos repeats.

## CONTACT CHAOS CARDS

If you pull a Contact Chaos Card from the Letter Card pile, the DM Don can choose ANY contact for you to message. The Don will probably choose your Mum. So lets hope no one plays the "Is it weird to think my sister's hot" text.

## BLANK SPACE TEXT CARDS

If your Text Card has a blank space, fill it in before you put it down to add a more personal touch.

## GOT A TEXT BACK?

If you receive a reply, congrats, you're no longer sad and lonely. Take a Text Card from the middle and add it to your winning pile. However, you must not tell them it's a game until the end of play.

## VOICE NOTE CARDS

If your Text Card has a voice note icon. This means you must send a voice note to the recipient. Ready up those vocal pipes.

## PICTURE CARDS

If your Text Card has a camera icon. This means you must send a picture to the recipient. Don't send anything you wouldn't want your mum to see.

## SORRY CARD

If you can't bear the consequences of your actions, take a picture of the Sorry Card and send it to the victim. This will explain that it's all just a game. Beware, if you do this before the game is over, then you must return the winning card to the player that put it down.

## CALLS

If your friends force you to make a phone call, do it, that would be funny. But remember to keep up the act.

## HOW NOT TO PLAY

There are loads of ways to play Hit Send and loads of ways you shouldn't. Here's some inspiration:

1. Do not play this game on August 28th 2028.
2. Do not play this game if you are a group of 7 men who have a very large YouTube channel with an impressionable audience.
3. Do not play this game at precisely 3:12am, in a bubbly bathtub, surrounded by romantic candles and incense sticks.
4. Do not play this game if you have ever come 3rd place in a swimming competition.
5. Do not play this game if you're in that awkward 2-month period after a break-up where the whole world is caving in and you miss your ex so much that you think this could be a chance to get back in contact with them but instead it will be the worst decision you ever make and they will file a restraining order on you.

## EXPERT RULES

1. If you text your grandparents, you get double points.
2. If any player gets blocked, they automatically win.

4. If a text results in a date/relationship/marriage, you can start with 6 cards the next time you play.
5. If you lose your job, we'll send you a fresh new game.
